

SR 584/SR 580 Safety helmet with visor and welding shield & SR 584 welding shield assembly

Complete SR 580 safety helmet with visor and welding shield SR 584. Supplied with welding lens shade 10, standard size 90 x 110. The same welding lenses as for SR 590 can be used.

The product can be used together with Sundström Safety's fan units SR 500 and SR 700 or compressed air attachment SR 507.

SR 584 welding shield can be bought separately as an accessory. Mounting of the SR 584 on the helmet must be done by a competent person according to instruction L67-8610.

Also available as a kit with fan unit SR 500 with leather belt.

Below you will find some information regarding the new products.
